

ALABARE
VETERANS'
SELF-BUILD
SCHEME

WE BELIEVE THAT BREAKING THE CYCLE OF VETERAN HOMELESSNESS MEANS MORE THAN PROVIDING SHELTER - IT MEANS RESTORING DIGNITY, PURPOSE, AND HOPE.

Our Veterans' Self-Build scheme offers veterans experiencing or at risk of homelessness the chance to help build their own homes while receiving one-to-one wellbeing support. Whether alone or with family, veterans can apply to join this life-changing initiative.

Through the scheme, veterans benefit from:

HOMES – The opportunity to rent one of the homes they help construct, creating a stable foundation for the future.

HEARTS – Personalised support that builds confidence, improves mental and physical health, and fosters lasting friendships.

MINDS – Access to multiple training programmes and nationally recognised qualifications in the construction industry, opening doors to employment and new career paths.

Some veterans go on to work in construction, while others pursue different careers, but all leave the scheme with renewed self-esteem, practical skills, and a stronger sense of purpose.

“The support and care I have received goes way above and beyond anything I could possibly have expected. I have made life-long friendships, gained confidence, rediscovered elements of myself that I thought were gone forever.”

Steve - Veteran
